Ri-elaborare, interpretare in chiave contemporanea le ispirazioni offerte dalla natura per dare vita a un progetto completo e versatile per pavimenti e rivestimenti. Una ricerca estetica che dall'analisi di numerose pietre ha portato a selezionare le caratteristiche di alcune tipologie e a tradurle in veste ceramica, attraverso la costruzione artificiale di variazioni cromatiche e combinazioni grafiche inedite rispetto ai materiali naturali.

Re-elaboration and interpretation in a contemporary style of the inspirations offered by nature to create a complete and versatile floor and wall tile design project. An aesthetic analysis of numerous stones has led to the selection of the characteristics of certain types of stones, which have taken on a ceramic form through the artificial creation of colour variations and graphic combinations which are unusual compared to the natural materials.

MULTI

Beige & Fog stone-patchwork.

Partendo dalla selezione delle 3 tipologie SINGLE, MULTI mescola sapientemente le grafiche in due colori, Beige e Fog, sviluppando una sintesi perfetta data dagli accostamenti.

Starting from the selection of the 3 SINGLE versions, MULTI skilfully blends the graphics in two colours, Beige and Fog, for combinations that create a perfect synthesis.
